Desired employment / Occupational field **Security Domain**

Dates	18-09-2017 at present
Occupation or position held	Head of SOC – Security Strategist - CISO
Main activities and responsibilities	As SOC Manager and CISO I am responsible for defining and coordinating all security activities such as Vulnerability Management, Security Platform Management, Incident Handling, Process and procedure Management, Compliance and others. As Security strategist, I am responsible for developing strategic consensus on cyber security topics across multiple Public authorities, stakeholder seniority levels, and backgrounds. I facilitate identification, prioritization and coordination of public cyber security activities. I design and gain support for implementation of subsector-wide risk management program and I promote and coordinate cyber security awareness of owners and operators.
Name and address of employer	Informatica Alto Adige SPA (Bolzano)
Dates	26-05-2014 at 15-09-2017
Occupation or position held	Network & Security engineer – SIEM Expert
Main activities and responsibilities	As Network/System engineer I am responsible for implementing, maintaining, supporting, developing and, in some cases designing communication networks within an organisation or between organisations. The primary goal is to ensure the integrity of high availability network infrastructure in order to provide maximum performance for users, such as staff, clients, customers and suppliers. As Security engineer and SIEM expert I monitor computer networks for security threats or unauthorized users to identify compromised machines and report on security measures taken to address threats using SIEM technology in order to satisfy compliant requirements. As part of Security Operation Center we analyse security risks and develop response procedures. Additional duties include developing and testing software deployment tools, firewalls and intrusion detection systems, installing computer security software, conducting regular security audits, preparing security status reports, educating users on computer security, creating security documentation for users, assisting in disaster recovery and gathering evidence regarding cybercrimes.
Name and address of employer	Be-Innova SRL, Trento (Italy)
Occupation or position held	Product Manager of a Security Information and Event Management Solution (Akab)
Dates	01-01-2013 at 25-05-2014
